---

**Objective:** Seeking a position as a Computer Lab Monitor

**Specializations:** Physics, Mathematics

**Relevant Experience**

School librarian at XYZ High School, Sometown, XY for two years. Duties included cleaning up computers and shutting them down, and cleaning bookshelves (god this is so boring to read and type out lol) and computer screens. (This is so boring and trivial, do you think they would even care?)

Member of Physics forum and Yahoo forum since Jan 1, 2009. Besides getting help for myself on these forums, I have helped other students with mathematics problems. I am fairly competent with Mathematical programs such as Maple, Mathematica, and  $\text{\TeX}$ .
